CURRICULUM VITAE

Qi-Li Gao [高琦丽]
Research Fellow in Urban Mobility and Social Inequality

The Bartlett Center for Advanced Spatial Analysis (CASA). Tel: +86 13554748717
University College London. Email: qili.gao@ucl.ac.uk
Personal website: www.gaoqili.cn.

EDUCATION

Ph.D. (09/2015-12/2019)	**Cartography and Geographic Information Science, Wuhan University, China** Dissertation: *Big Data-Driven Analysis on Urban Activity Space Dynamics*
M.E. (09/2013-06/2015)	**Surveying and Mapping Engineering, Wuhan University, China** Dissertation: *Cabdrivers' Behavior Patterns Analysis from the Trajectory Data*
B.S. (09/2009-06/2013)	**Geographic Information System, Wuhan University, China** Dissertation: *Risk Assessment for Drought Disaster Based on Graphic Modeling*

RESEARCH INTERESTS

- Human Dynamics and Urban Informatics
- Spatiotemporal Data Mining and Social Computing
- Human Mobility and Social Inequality
- Data-driven Urban Analytics

PROFESSIONAL POSITIONS

02/2022-present	Research Fellow, University College London, United Kingdom
03/2021-11/2021	Research Assistant, The Hong Kong Polytechnic University, Hong Kong
01/2020-01/2022	Postdoctoral Fellow, Shenzhen University, Shenzhen, China

RESEARCH PROJECTS

2021-2023 National Natural Science Foundation of China (NSFC), "*Method of Measuring Urban Inequality Based on Multi-dimensional Activity Space Features* (基于多维活动空间特征的城市不平等性测度方法研究)". (**PI**, CNY 240,000)

- Inferring individual activity space features from big data.
- Measuring disparities in activity patterns among different social groups based on inferred activity space features.
- Modeling the associations between urban spatial structure and activity disparities.

2021-2022 Postdoctoral Science Foundation of China (NSFC), "*Identifying the boundaries and spatial structure of metropolitan areas using multi-source big data* (大数据

解析都市圈范围及其空间结构)". (**PI**, CNY 80,000)

- Inferring individual activity features from multi-source spatio-temporal data.
- Identifying the boundaries of metropolitan areas based on multi-dimensional indicators.
- Revealing the spatial structure of metropolitan areas from the dual perspective of "function-network".

2019-2022 National Natural Science Foundation of China-Joint Programming Initiative Urban Europe (NSFC-JPI_UE), "*SIMETRI: Sustainable Mobility and Equality in Megacity Regions-Patterns, Mechanisms and Governance* (超大城市区域的可持续交通与均等化：模式、机理与治理)". (Core researcher, CNY 2,000,000)

- Developing a data analysis and simulation platform.
- Studying socio-spatial segregation using big data.
- Investigating the influencing factors of socio-spatial inequality.

2017-2020 National Natural Science Foundation of China (NSFC), "*Data-driven Research on Spatial Selection Behavior Mechanism* (大数据驱动的空间选择行为机制研究)". (Core researcher, CNY 650,000)

- Exploring individual travel trajectory and attribute characteristics from various big data, including public transit smart card data, private vehicle plate recognition data.
- Estimating individual and group characteristics and differences based on data-driven approach.

TEACHING EXPERIENCES

2022 **Advanced Geographic Information Systems (Guest Lecturer)**
The Hong Kong Polytechnic University
大数据与城市分析 (Guest Lecturer)
Shenzhen University

INVITED AND CONFERENCE TALKS

2021 **Gao, Q.-L**., Zhong, C. Yue, Y. Activity inequality by income status?. The 2021 European Colloquium on Theoretical and Quantitative Geography, 2021. Online. Oral presentation.
Gao, Q.-L. Understanding socio-spatial inequality using human mobility data. The Smart Cities Research Institute (SCRI) salon, 2021. Hong Kong, China. Invited talk.

2020 **Gao, Q.-L**., Yue, Y. Li, Q.-Q. Revealing activity disparity between different social groups by travel mode. The 16th Workshop on Spatial Behavior and Planning, 2020. Xiamen, China. Oral presentation.

2019 **Gao, Q.-L.**, Yue, Y. Li, Q.-Q. Exploring the spatial segregation of new migrants based on activity space: A big data approach. The 27th International Conference on Geoinformatics, 2019. Sydney Australia. Oral presentation.
Gao, Q.-L., Yue, Y. Li, Q.-Q. Understanding socio-spatial segregation from activity space: A big data approach. The 13th IACP conference, 2019. Chengdu, China. Oral presentation.
Gao, Q.-L., Yue, Y. Li, Q.-Q. Urban commuting dynamics in response to public transit upgrades: A big data approach. The 16th Interactional Conference on Computers in Urban Planning and Urban Management, 2019. Wuhan, China. Poster.

2017 **Gao, Q.-L.**, Yue, Y. Li, Q.-Q. Identifying intra-city residential spatial distribution changes using transit smart card data, The 25th International Conference on Geoinformatics, 2017. Buffalo, U.S. Oral presentation.

PROFESSIONAL SKILLS

- Strong skills in spatiotemporal data analytics, Urban modeling and visualization, Statistics.
- Domain knowledge in GIS, Urban geography, Transportation studies, Urban theories and Data science.
- Proficient in programming languages such as Python, Matlab.
- Expert in ArcGIS, GeoDa, QGIS, SPSS.

REFEREES

- Prof. Qing-Quan Li (PhD supervisor and postdoctoral co-supervisor). Shenzhen University
  Email: liqq@szu.edu.cn
- Prof. Yang Yue (PhD co-supervisor). Shenzhen University

Email: yueyang@szu.edu.cn

- Prof. Chen Zhong (team member). University College London
  Email: c.zhong@ucl.ac.uk
- Prof. Michael Batty (team member). University College London
  Email: m.batty@ucl.ac.uk
